Sir:

In response to the Office Action of July 3, the due date having been extended for two (2) month to December 3, 2002, the following Remarks are respectfully submitted in connection with the above-identified application.

REMARKS

Objections to the claims

Claim 1 has been objected to with the assertion that the designation of "a)" before "comprises" is improper. The Examiner suggests that "a)" should be between "comprises" and "charge transfer components." Applicants traverse this objection and withdrawal thereof is respectfully requested.

Claim 1 recites, in part,

"a substrate....; and a patterned or unpatterned charge transfer material on or at a surface of the substrate wherein the charge transfer material
